Haywood Community College Auditorium, 1500 Bldg, Room 1502, 185 Freedlander Drive Clyde, NC 28721

Advancing Ideas for Canton's Future

Based on feedback from the Town's Comprehensive Plan process, join community members, local organizations, agencies, and project partners for an interactive open house exploring opportunities to strengthen outdoor recreation, improve river access, support community recovery, and enhance quality of life in Canton.

This workshop is hosted by a technical assistance team supported by the U.S. Environmental Protection Agency (EPA) in partnership with the Town of Canton.

Visit interactive stations to:

- Learn about ongoing planning efforts, including the Town's Comprehensive Plan, the Two Banks mill site redevelopment, and the U.S. Army Corps of Engineers Flood Risk Management Study.
- Share ideas for the future of the Pigeon River corridor, including the mill site, riverfront, parks, and other key community spaces.
- Provide input on recreation, conservation, resilience, and community development priorities that will help shape future projects.

Who Should Attend?. Anyone who lives in, works in, recreates in, or cares about Canton and the Pigeon River watershed is encouraged to participate.
